DETAILED ACTION

Election/Restrictions

Applicant's election **without traverse** of Group I in the reply filed on 2/15/2006 is acknowledged.

Newly submitted claims 95-106 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

The semiconductor device can be made by using a different material. The said interlayer insulating film, etch stopper film, or barrier insulating film against a metal does not have to be an organic insulating film. For example an oxide can be used in place of the organic film and perform the same utility.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim claims 95-106 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

EX PARTE QUAYLE

This application is in condition for allowance except for the following formal matters:

Claims 36-47 & 89-94 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, claims 36-47 & 89-94 have not been further treated on the merits.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
